

For the prevention and cure of  
BILIOUS AND MALIGNANT FEVERS  
is recommended  
**Hahn's ANTI BILIOUS PILLS**  
THIS Medicine has been attended  
with a degree of success highly grateful  
to the inventor's feelings in several parts  
of the West Indies and in the Southern  
and Middle States, &c.

The testimony of a number of persons  
can be adduced, who have reason to be-  
lieve that a timely use of this salutary re-  
medy has, under Providence, preserved  
their lives when in the most alarming cir-  
cumstances.

Facts of this conclusive nature speak  
more in favour of a medicine than col-  
umns of pompous eulogy founded on  
mere assertion.

It is not indeed presumptuously  
proposed as an infallible cure, but the inven-  
tor has every possible reason that can re-  
sult from extensive experience for be-  
lieving that a dose of these Pills taken  
once in every two weeks during the pre-  
valence of our bilious fevers, will prove  
an infallible preventive; and further,  
that in the earlier stages of those diseases  
their use will very generally succeed in  
restoring health, and frequently in cases  
restored desperate and beyond the power  
of common remedies.

The operation of these pills is perfectly  
mild, so as to be used with safety by per-  
sons in every situation and of every age.  
They are excellently adapted to carry  
off superfluous bile and prevent its mor-  
bid secretions—to restore and amend the  
appetite—to produce a free perspiration  
and thereby prevent colds which are of-  
ten of fatal consequences. A dose never  
fails to remove a cold if taken on its first  
appearance: they are celebrated for re-  
moving habitual costiveness—sickness at  
the stomach and severe head-ache—and  
ought to be taken by all persons on a  
change of climate.

They have been found remarkably effi-  
cacious in preventing and curing disor-  
ders attendant on long voyages, and  
should be procured and carefully preserv-  
ed for use by every seaman.

**Hamilton's Elixir,**  
A sovereign remedy for colds, obeli-  
mate coughs, asthmas, sore throats, ca-  
tarrhs, and approaching consumptions—  
To persons who have children afflicted  
with the **HOOPING COUGH**, this dis-  
covery is of the first magnitude, as it af-  
fords immediate relief, checks the pro-  
gress, and in a short time entirely re-  
moves the most cruel disorders to which  
children are liable. The Elixir is per-  
fectly agreeable, and the dose so small  
that no difficulty arises in taking it.

**Hamilton's Grand Restorative,**  
Is recommended as an invaluable me-  
dicine for the speedy relief and perman-  
ent cure of  
Nervous Disorders Violent cramps in  
Consumptions the stomach and  
Lowness of spirits back  
Loss of appetite Indigestion  
Impurity of blood Melancholy  
Hysterical affection Gout in the stomach  
Inward weaknesses Pains in the limbs  
and debility Relaxations, etc.

Mustard.**

A safe and effectual remedy for acute  
and chronic rheumatism, gout, rheumatic  
palsy, lumbago, numbness, white  
swellings, chilblains, sprains, bruises, pain  
in the face and neck, etc. etc.

**Lee's Ointment for the Itch.**  
Warranted an infallible remedy at one  
application, may be used with perfect  
safety by pregnant women, or on infants  
a week old, not containing a particle of  
mercury or any dangerous ingredient  
whatever, and not accompanied with that  
tormenting smart which attends the ap-  
plication of other remedies.

**Hahn's true & genuine German Corn  
Plaster.**

An infallible remedy for corns, speedily  
removing them root and branch, with-  
out giving any pain.

**The Genuine Persian Lotion,**  
So celebrated among the fashionable  
throughout Europe, is an invaluable cos-  
metic, perfectly innocent and safe, free  
from corrosive and repellent minerals,  
the basis of other lotions, and of un-  
paralleled efficacy in removing blemishes  
of the face and skin, freckles, pimples,  
inflammatory redness, scurfs, tetters, ring-  
worms, sunburns, prickly heat, &c.

**Hahn's genuine Eye Water,**  
A sovereign remedy for all diseases of  
the eyes, whether the effect of nature  
weakness or of accident.

gives immediate and lasting relief in the  
most severe instances.

intermittent fevers.

may be had gratis, describing cures per-  
formed by the above medicines; the num-  
ber, importance and respectability of  
which, fully justify every article of this

## Celebrated Antibilious Pills.

THE subscribers inform the Public,  
that they have purchased of Doctor  
Wilkins his Receipt and the sole right to  
make and prepare his Pills, known by  
the name of Wilkins' Antibilious Pills.  
These Pills have been sold in this city  
and the neighboring country for the last  
twelve years, and during that time have  
acquired a character (for safe and effec-  
tual operation) over all medicines of that  
class ever offered to the public. Their  
composition is known to and approved of  
by several of the most eminent physicians  
of this place. The subscribers, with a  
view to extend their sale in the country,  
and to render them an object to country  
druggists and others, have reduced their  
wholesale price very considerably; and  
to accommodate individuals, will furnish  
them for the future in whole boxes at 50  
cents, and half boxes at 25 cents each.—  
To prevent imposition from counterfeiters,  
each direction will be signed by Dr. Hen-

## Fan-Sash Making.

**METAL FAN-SASHES**, of various  
descriptions, will be made by the  
subscriber, at his shop, lower end of Duke  
street. The want of a Metal Fan-Sash  
Manufacture in Alexandria, has hitherto  
been severely felt by builders and oth-  
ers, who have been compelled to make  
use of wood, which is neither elegant nor  
durable. The various forms into which  
the metal can be shaped have given it a  
decided superiority, and the difference in  
the price is very trifling. The subscriber  
has been at considerable expence in pro-  
curing the necessary preparations, and  
relies on public enterprise for success in  
the undertaking.

Gentlemen in the country, by sending  
the dimensions of their sashes, can have  
them made at the same price as if in town.

## Proposals

FOR Publishing by Subscription, and  
now ready for the press, a series of  
historical volumes, which when finished  
will assume the title of

## Universal History Americanised;

Or, an historical view of  
Europe, Asia, Africa and America,  
from the earliest records to the nineteenth  
century—with a particular reference to  
the state of society, literature, religion,  
and form of government in the United  
States of America.

BY DAVID HANNAH, M. D.  
"Life is so short and time so valuable,  
that it were happy for us if all great  
works were reduced to their quintes-  
sence."  
Sir William Jones.

## PROSPECTUS.

The Asiatic part of this work contains

a general view of the anti-bilious—  
the general deluge—the re-settlement  
of the Globe after that great event—of  
the primitive postdiluvian nations, which  
were formed in Asia, the cradle of the  
world. Their various ramifications, re-  
volutions, and of the general course of  
Empire.

**AFRICA.**  
The African part, contains a concise  
history of Egypt, Carthage, Numidia,  
Mauritania, Abyssinia, of the Practical  
States, and the Hottentots, with a group-  
ed view of its uncivilized settlements.

**EUROPE.**  
The European part, contains the his-  
tory of Greece and Rome, from their  
origin to their dissolution—of the various  
nations which were conquered by them—  
and of the nations by which the Romans  
themselves were finally conquered, and  
of the nations which were formed from  
the fragments of the Roman Empire, and  
the various revolutions of the latter; to-  
gether with a view of the nations which  
never were subjected to the Romans.

**AMERICA.**  
The American part, contains a general  
history of the Western continent, under  
the heads of Free, European, and Abo-  
riginal or unconquered America. The  
first contains a history of the United  
States, from their first settlement as  
English Colonies, till the present time.—  
The second, of all parts dependant on  
Europe.—And the third, of all that are  
still owned by the Aborigines.

It is expected that the whole will be  
comprised in 10 or 12 octavo volumes,  
of between four and five hundred pages  
each—to be printed in Philadelphia,  
on good paper and fair types, for \$3  
1-3 per volume, in sheep binding, or  
\$4 1-3 Calf Gilt, to be paid for on deli-  
very.

This work has been in contemplation  
upwards of 40 years. The project of  
it was conceived in 1780, on reading the  
Universal History, then recently edited  
in 60 volumes, by a society of gentlemen  
in England. The original idea of ex-  
tracting the quintessence of that vo-  
luminous work, which contained the  
most complete system of history the  
world had then seen, has ever since  
been enlarging and improving by an  
attentive perusal of the histories writ-  
ten by Robertson, Hume, Gibbon, and o-  
ther modern authors—of the Asiatic re-  
searches—of the works of Sir William  
Jones, and other learned Orientalists—  
the publications of intelligent travellers,  
who, in the course of the last half cen-  
tury have explored almost every region  
of the Globe. These collectively have  
thrown a blaze of light on countries com-  
paratively unknown, and on portions,  
both of ancient and modern history which  
were confused and obscure at the period  
when the writers of the Universal History  
published their work. The arrange-  
ment of materials collected from these  
sources commenced in the year 1780,  
when, in consequence of the surrender  
of Charleston to Sir Henry Clinton, the  
author was suddenly released from a sea  
of business and sent as a prisoner of war  
to the British Garrison then in St. Au-  
gustine, and there confined for eleven  
months, without any peculiar employ-  
ment. Steady progress has been made  
for the last ten years in correcting and  
transcribing the work for publication.

## UNITED STATES.

The History of the United States is  
given at full length—that of foreign coun-  
tries is more or less expended or con-  
tracted in proportion to the intrinsic im-  
portance of each—its tendency to illus-  
trate portions of Holy Writ—the Greek  
and Latin Classics—and also in propor-  
tion to its connexion with the U. States,  
or as furnishing useful practical infor-  
mation to its citizens, or as the paternal  
soil of their ancestors.

The above sketch of the nature and  
objects of this immense work, which has  
occupied the attention of the Author for  
upwards of 40 years, was found among  
his papers, and is now given to the pub-  
lic in his own words. Since that period,  
a few chapters have been added by the  
Reverend **SAMUEL STANHOPE SMITH**,  
which brings it down to the close of the  
last war.

The publication commences with a

is proper to state, that the gentlemen

THE REVIEW OF PHILLIPS'S ELOQUENCE.  
[Continued.]

After quoting and exposing the bombast of this orator, in a multitude of further instances, the Edinburgh Reviewer proceeds thus:—

"Mr. Phillips has but little talent for wit or humor.—The following piece of violent absurdity is, we presume, meant for a specimen of his powers in that line.—Only just admire this far-famed security bill—this motley compound of oaths and penalties, which under the name of emancipation would drag your prelates, with a halber about their necks, to the vulgar scrutiny of every village tyrant, in order to enrich a few political traders, and distill through some state alembic the miserable risings, of an ignorant, a decaying, and degenerate aristocracy! Only just admire it! Originally engendered by our friends the opposition, with a cuckoo insouciance, they swindled it into the nest of the treasury raven, and when it had been fairly hatched with the beak of the one and the nakedness of the other, they sent it for its feathers to Monseigneur Quarantotti, who has obligingly transmitted it, with the hunger of its parent, the rapacity of its nurse, and the coxcombry of its plumage, to be baptized by the bishops, and received *amigo gratulatio animo*, by the people of Ireland! O thou sublimely ridiculous quarantotti! Oh thou superlative coxcomb of the conclave! What an estimate hast thou formed of the mind of Ireland! Yet why should I blame this wretched scribe of the propaganda?"

"The speech, however, in the case of *Blake vs. Wilkins* is full of ribaldry; and the transitions from vulgar and coarse, or silly jokes, to extravagant pompous declamation, in Mr. Phillips's worst bombast, make this, perhaps, the worst thing in the collection. His quotations are chiefly from Dibdin's songs. Some times he gives the words of the original exactly—as when he cites from *Captain Wattle and Miss Ros*;—sometimes he parodies—as in quoting *Poor Jack*—which furnished, we presume, the original of the following motley passage."

"Alike to him the varieties of season, or the vicissitudes of warfare. One sovereign image monopolizes his sensibilities. Does the storm rage? the Widow Wilkins outstays the whirlwind. Is the ocean calm? its mirror shows him the lovely Widow Wilkins.—Is the battle won, he thinks his laurel that the Widow Wilkins may interweave the myrtles. Does the broadside thunder? he invokes the Widow Wilkins!"

"A sweet little cherub, she sits up aloft To keep watch for the life of poor Peter!"

"And he gives an elaborate adaptation of Alley-Croker in the same style. We really cannot give any more specimens of this production. But the vulgar story, so badly, as well as flippantly told of Mr. Fox, in page 50, and which we will venture to assert has no earthly foundation, except in the jest-book it was taken from, where we dare say it was at least told comparatively well, surpasses any thing in this volume, for low and unsuccessful attempt at humor."

"After the idea which the foregoing pages must have conveyed of Mr. Phillips's judgment, it can hardly appear wonderful that we should now mention as amongst the most prominent of his faults, an injudicious choice of his topics, and a manner of handling them which generally sacrifices the sense to the sound. In fact, he never appears for a moment to have in view the object which alone he ought constantly to aim at, conviction or persuasion. To strike, to dazzle, is his perpetual effort; to bring forward the speaker, and let the subject fare as it may, is the manifest purpose, not only of every speech, but of all the particular passages. To be sure, the kind of speaking in which he seems chiefly to have practised, lends naturally enough to this grand defect. When a gentleman is called upon after dinner for a speech, he is expected to entertain the company pretty much as if he were asked to sing a song. There is too often upon such occasions a want of any precise point towards which his eloquence can be directed; and at all events it is displayed to a friendly audience, and hardly ever in *foro contentioso*.—But never was there any instance of oratory brought so exactly down to the level of mere display amusement (except perhaps in the ludicrous associates of clubs) as at the dinner on Dina's Island in the lake of Killarney:—for there, it is plain that speech-making must have been introduced, like pipes or songs, for no other purpose than to pass the evening. Yet even here there was a style more peculiarly ill adapted to the occasion than any other; and that the orator hit it, the following sentences may testify."

"I appeal to history! Tell me, then, reverend Chronicler of the grave, can all the illusions of ambition realized, can all the wealth of an universal commerce, can all the achievements of successful heroism, of all the establishments of this world's wisdom, secure to empire the permanency of its possessions? Alas, Troy thought so once; yet the land of Priam lives only in song! Thebes thought so once; yet her hundred gates have crumbled, and her very tombs are but as the dust they were vainly intended to commemorate! So thought Palmyra, where is she? So thought Persepolis, and now

Yon waste where roaming lions howl,  
Yon aisle where moans the grey-eyed owl,  
Shows the proud Persians' great abode,  
Where scepter'd once, an earthly God  
His power-clad arm, controul'd each happier clime,  
Where sports the warbling muse, and fancy soars sublime.

So thought the countries of Demosthenes and the Spartan; yet Leonidas is trampled by the timid slave, and Athens insulted by the servile, mindless and enervate Ottoman! In his hurried march, Time has but looked at their imagined immortality; and all its vanities, from the palace to the tomb, have, with their ruins, erased the very impression of his footsteps."

**LATEST FROM ENGLAND.**  
The new and elegant fast sailing ship *Falcon*, J. W. Lewis commander, arrived here last evening, in 25 days from Liverpool. By this vessel we have received London papers to the evening of the 27th March, and Liverpool to the 30th. Extracts follow:

**From Bell's London Messenger, of March 23.**  
The Bourbons have followed the example of other countries in recognizing the accession of the present King of Sweden. He is now acknowledged by every civilized power. This is an era, and a very important one, in the history of the monarchies of Europe. It stands forth as a precedent and an example, that the absurd notions, hitherto imputed to kings and cabinets, of the indefeasibility of regular rights, have happily passed away, and that the good of the people is acknowledged to be of equal importance with the rights of descent. As this principle is a real gain to popular liberty, and on the other hand does not encourage any source of anarchy, we must again express our satisfaction with its recognition.

**London, March 26.**  
We understand that one of the expedients fallen upon by the Spanish government to enable it to fit out the Russian squadron, is to allow the merchants permission to ship on board, two thousand tons of Merchandize, at low duties, the receipts of which it was expected, would afford considerable aid. The exact destination is not told to the merchants, but they are given to understand that the force will be so overwhelming, that to whatever point of the ultramarine dominions it is bound, resistance on the part of the Patriots must be vain. The scheme however does not meet with great support. The fate of Morillo's expedition, much larger than Spain can now send out is not forgotten.—The Spanish clergy murmur a good deal. They think that the benediction of Heaven on the Hispano-Russian enterprise cannot be secured unless the heretical character is taken from the ships by a solemn baptism, which ceremony it is thought will take place previous to their putting to sea.

**March 27.**  
We give the following, as the report in the city, without meaning to pledge ourselves for its authenticity:

"The city one o'clock.  
There is much talk here of a financial plan in contemplation, by which Stock Debentures are to be issued, and also Stock Notes as a circulating medium.—According to this plan, Debentures at a fixed rate are to be issued, which, at any given time, say two or three years, the holders may have converted into Stock, without being liable to any depreciation

that may take place between the issue of the Debenture and his demand to have it converted into Stock. The Stock Notes proceed upon this principle; if a person wishes to borrow any sum of money upon his Stock, he pledges his Stock Notes which may be paid away in the same manner as a Bank Note."

**Liverpool March 28.**  
Sales of American sweet flour was effected to day, at late quotations—sour is 1s 2d dearer. Cotton has experienced a steady, but not animated demand, and last week's prices, with a few exceptions, fully supported. Carolina Rice goes off very steadily at unvaried rates. Little done in Turpentine. Tar but little enquired for. Leaf Tobacco 1-3d per lb. dearer.

**Prices at Gibraltar, March 24.**—Beans white 4 sales; brimstone roll 3 30 no demand; beeswax, 36 a 37 saleable when pure; cocoa, Carac. none and wanted; do Trin. 31 a 32; cotton, Pernam. 46 a 47; candles, sperm 46 large parcels arrived dull; indigo, Span. 1 50 partial sales; Bengal 1 25 do; hides, B. **From the Palladium.**  
We were last evening favored with London papers to the evening of the 27th ult. and Liverpool to the 30th. received by the ship *Falcon*, capt. Lewis, from the latter place.

When the present British Parliament is dissolved, Mr. Waltham, one of the opposition leaders in London, whose speeches at popular meetings have often been mentioned, is to be a candidate for the city in the election which will follow.

The Princess of Wales has commenced a suit against the assignees of the Duke of Brunswick, for 15,000*l.* lent by her to her brother. Payment was resisted on the idea that the bonds were not in the hand writing of the late Duke.

The London papers mention that Bernadotte, now king of Sweden, does not live with his wife. His lady is sister to Joseph Bonaparte's wife, and daughter of M. Clery, a respectable merchant. She resides at Paris.

New duties on importation and transit have been laid in Holland. Some of them are disagreeable to the British who contend that they do not conform to a treaty made at Vienna by the Congress, June 9, 1815, as to the Rhine, &c.

A British editor says the U. S. will get, by acquiring the Floridas, a regular supply of pitch, tar, turpentine, masts and ship plank! besides live oak that after 100 years exposure, acquires a stony hardness.

A London paper says the Spanish surveyors speak unfavorably of the Russian ships; but they are to carry 2000 troops to Peru, and 2000 to Mexico.

The objects of the English Missionary Society lately attracted the particular attention of second son of Athol, aged 19. And after investigation, considering its objects in the highest degree laudable, he determined to go on a mission himself, and his family opposing his design, he absconded for the purpose of effecting it—but was found a short time afterwards and restored to his friends.

The London Courier says, British overtures for admitting American vessels to their colonies were rejected, because of a condition that the British should be allowed to trade with the Indians in the U. S. Territory.

Accounts had been received in England from India, over land, of the revolt, defeat and flight of the Paishwa of Poona.

"The History of British India," by James Mill, Esq. in three vols. quarto, has been recently published in England. The work is much extolled.

**COMMUNICATED FOR THE PATRIOT.**  
Extract of a letter, dated Valparaiso, Feb. 6, 1818, to a commercial house in Baltimore.

The blockade of the ports of Chili, extending as well to ships of war as to merchant ships, was declared by the viceroy of Lima in March last, and of this the British commodore Bowles, of the *Amphion*, was well acquainted when at Lima. He, however, had a good excuse for entering Valparaiso a second time, having promised to return Mr. Torres, the Deputy, whom he carried from this country. But he had no occasion to make use of this pretext, not finding any vessel off this port, when he returned from Lima.—The *Amphion* went out to the blockading squadron the other day, and commodore Bowles stated to the commander of the *Venganza*, Don Tomas Cabrera, that as he had offered the American ship of war, the *Ontario*, captain Biddle, he could not consider a blockade existing with regard to government vessels. To this, the Don assented, and agreed that government vessels bound to Chili would not be molested unless he received orders from Lima to the contrary. The commodore then requested that the British ships now here, being ignorant of the blockade when they entered, might be allowed to proceed without hindrance. This was not granted, but Don Tomas promised not to capture vessels bound here, but to inform them of the blockade and warn them off. The *Amphion* then returned. I wondered why the *Venganza* had not captured more ships, and now believe the commander to be one of those *Liberates*, and that he sometimes purposely allows them to escape him.

On the 29th ult. arrived here, the ship *Levant*, capt. Cary, 102 days from Boston, with a large quantity of quicksilver and several other articles—reports to be bound to the N. W. Coast with all except the quicksilver, which they endeavor to sell here. The Spanish squadron off this port, now consisting of eight vessels, came very near bringing this vessel too, being nearly within gun shot of her, but capt. Biddle sent out his boats and towed her in.

On the 2d inst. the privateer *Fortuna*, formerly *Catalina*, sailed on a cruise; and on the day following entered this port, the Spanish brig *Mercedes*, alias *Sacta*, a prize to the privateer *Chileno*, formerly *Adeline*. She was captured in lat. 14 1-2, near the coast, bound from Guayquil to Africa, via Pisco, laden with rice, cocoa, sugar, tobacco, cigars, Lima hats, senties, &c. and about 14 bales ordinary dry goods, valued in all here, at 230,000*l.* The prize-master, and five of the seamen belong to vessels from the United States, now here, and capt. Biddle had them sent on board the *Ontario*, that they might be returned to the vessels which they had quitted. He did the same with some who had shipped on board the privateer *Fortuna*, and thus renders an act of justice to American masters and owners, which would not be done if the *Ontario* was not here. The sending a national ship to this section of the globe, is highly important to our country and its commerce, and is highly creditable to the government.

Extract of a letter, dated Santiago de Chili, January 16, 1818, received by a commercial house in this city, and politely furnished the editors for publication.

"Since mine on the 5th inst. there have been the following arrivals at the port: ships *Albion*, *Bryden*, from London; *Caledoni*, *Liverpool*; *Flora*, *Buenos Ayres*; *brigs Dragon*, do.; *America*, *Rey*, *Philadelphia*; and the British frigate *Amphion*, commodore Bowles, from Lima.

"By the latter we learn, that on the 9th December, 12 transports carrying 3000 men and accompanied by two vessels of war, sailed from Lima, and according to the current reports destined for Talcahuana.

"It appears that the commodore was not very well received, and Mr. Torres, who proceeded in the frigate with money for the prisoners at Lima, and to treat respecting their exchange, was confined during their stay there, and not allowed to communicate with any one. Perhaps this line of conduct towards the deputy from Buenos Ayres and Chili, and towards the commander of one of the ships belonging to Great Britain, who has declared that she will observe a strict neutrality with regard to Spain and her revolted colonies, may proceed partly from the natural jealousy and incivility of Spaniards, and partly from a desire that their plans and the extent of the discontent prevailing in Peru, might be concealed.

"It seems after all that the *Beaver* was not captured off Valparaiso, but near or in the bay of Talcahuana. The ship

Biddle sent out his boats and towed her in.

On the 2d inst. the privateer *Fortuna*, formerly *Catalina*, sailed on a cruise; and on the day following entered this port, the Spanish brig *Mercedes*, alias *Sacta*, a prize to the privateer *Chileno*, formerly *Adeline*. She was captured in lat. 14 1-2, near the coast, bound from Guayquil to Africa, via Pisco, laden with rice, cocoa, sugar, tobacco, cigars, Lima hats, senties, &c. and about 14 bales ordinary dry goods, valued in all here, at 230,000*l.* The prize-master, and five of the seamen belong to vessels from the United States, now here, and capt. Biddle had them sent on board the *Ontario*, that they might be returned to the vessels which they had quitted. He did the same with some who had shipped on board the privateer *Fortuna*, and thus renders an act of justice to American masters and owners, which would not be done if the *Ontario* was not here. The sending a national ship to this section of the globe, is highly important to our country and its commerce, and is highly creditable to the government.

**From the Baltimore Telegraph.**  
Extract of a letter, dated Santiago de Chili, January 16, 1818, received by a commercial house in this city, and politely furnished the editors for publication.

"Since mine on the 5th inst. there have been the following arrivals at the port: ships *Albion*, *Bryden*, from London; *Caledoni*, *Liverpool*; *Flora*, *Buenos Ayres*; *brigs Dragon*, do.; *America*, *Rey*, *Philadelphia*; and the British frigate *Amphion*, commodore Bowles, from Lima.

"By the latter we learn, that on the 9th December, 12 transports carrying 3000 men and accompanied by two vessels of war, sailed from Lima, and according to the current reports destined for Talcahuana.

"It appears that the commodore was not very well received, and Mr. Torres, who proceeded in the frigate with money for the prisoners at Lima, and to treat respecting their exchange, was confined during their stay there, and not allowed to communicate with any one. Perhaps this line of conduct towards the deputy from Buenos Ayres and Chili, and towards the commander of one of the ships belonging to Great Britain, who has declared that she will observe a strict neutrality with regard to Spain and her revolted colonies, may proceed partly from the natural jealousy and incivility of Spaniards, and partly from a desire that their plans and the extent of the discontent prevailing in Peru, might be concealed.

"It seems after all that the *Beaver* was not captured off Valparaiso, but near or in the bay of Talcahuana. The ship

phion, was well acquainted when at Lima. He, however, had a good excuse for entering Valparaiso a second time, having promised to return Mr. Torres, the Deputy, whom he carried from this country. But he had no occasion to make use of this pretext, not finding any vessel off this port, when he returned from Lima.—The *Amphion* went out to the blockading squadron the other day, and commodore Bowles stated to the commander of the *Venganza*, Don Tomas Cabrera, that as he had offered the American ship of war, the *Ontario*, captain Biddle, he could not consider a blockade existing with regard to government vessels. To this, the Don assented, and agreed that government vessels bound to Chili would not be molested unless he received orders from Lima to the contrary. The commodore then requested that the British ships now here, being ignorant of the blockade when they entered, might be allowed to proceed without hindrance. This was not granted, but Don Tomas promised not to capture vessels bound here, but to inform them of the blockade and warn them off. The *Amphion* then returned. I wondered why the *Venganza* had not captured more ships, and now believe the commander to be one of those *Liberates*, and that he sometimes purposely allows them to escape him.

On the 29th ult. arrived here, the ship *Levant*, capt. Cary, 102 days from Boston, with a large quantity of quicksilver and several other articles—reports to be bound to the N. W. Coast with all except the quicksilver, which they endeavor to sell here. The Spanish squadron off this port, now consisting of eight vessels, came very near bringing this vessel too, being nearly within gun shot of her, but capt. Biddle sent out his boats and towed her in.

On the 2d inst. the privateer *Fortuna*, formerly *Catalina*, sailed on a cruise; and on the day following entered this port, the Spanish brig *Mercedes*, alias *Sacta*, a prize to the privateer *Chileno*, formerly *Adeline*. She was captured in lat. 14 1

taken near Valparaiso, is supposed to be a ship from Boston.

"By last accounts from Valparaiso, there were three or four ships off that port, and doubtless of the enemy. Some suppose them to be a blockading squadron, and others that they convey troops intending to land some where on the coast. "Government are hard pushed for money, and have called upon the citizens of Great Britain, those of the United States and of Buenos Ayres now here, for a loan. The latter will lend something to help them to raise the wind, but the former decline."

#### Splendid Declaration of Independence.

JUST published and for sale by BEN. O. TYLER, a splendid copy of this important state paper, with facsimiles of all the signatures of those ages who declared as free, and pledged their lives, their fortunes and their sacred honor to support it. The publisher copied it himself from the original in the Department of State. This is the first and only copy of the facsimile of that invaluable document ever taken or published, after being on record more than 40 years.

CERTIFICATE.

"Department of State, Sep. 10, '17.

"The foregoing copy of the Declaration of Independence has been collated with the original instrument, and found correct. I have myself examined the signatures to each. Those executed by Mr. Tyler are curiously exact imitations, so much so, that it would be difficult, if not impossible, for the closest scrutiny to distinguish them, were it not for the hand of time, from the originals.

RICHARD RUSH."

PATRON.

Among the publisher's numerous patrons, are the president, vice-president, all the heads of departments, and many members of congress. At the head of the list stands the venerable Thomas Jefferson, from whom I have received a very polite letter, highly approving my publication.

TERMS.

This grand national work will be printed as fast as subscribed for, at 25 per copy. The publisher and engraver are natives, and the materials are all American; he therefore hopes to receive that patronage which the subject so richly merits. A prospectus and a sample is left at the reading room, market, Alexandria.

A liberal discount will be made to those who will purchase to sell again.

**James Kennedy & Son,**  
RESPECTFULLY inform the public that they have just received from **LEE'S MEDICINE STORE,** No. 46, Maiden Lane, New-York, a fresh supply of the following valuable MEDICINES:  
**Hamilton's Worm-destroying Lozenges.**  
Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.  
This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.  
**Description of Worms, and the symptoms by which they are known.**  
Worms which infest the human body are chiefly of four kinds viz.—The Terebr or large round worm; the Ascarides or small maw-worm; the Cucurbitae or short fat white worm; and lastly, the Tenia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.  
Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and foetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.  
Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm-destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.  
A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.  
Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

**The Restorative Powder for the Teeth and Gums.**  
For the prevention and cure of Bilious and Malarious Fevers, is recommended by **Hahn's ANTI-BILIOUS PILLS.**  
THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.  
The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.  
Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy loaded on mere assertion.  
It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.  
The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.  
They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

**Hamilton's Elixir.**  
A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions. To parents who have children afflicted with the **HOOPING COUGH**, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.  
**Hamilton's Grand Restorative.**  
Is recommended as an invaluable medicine for the speedy relief and permanent cure of  
Nervous Disorders Violent cramps in Consumptions the stomach and Lowness of spirits back Loss of appetite Indigestion Impurity of blood Melancholy Hysterical affection Gout in the stomach Inward weaknesses Pains in the limbs and debility Relaxations, &c.  
**Hamilton's Essence and Extract of Mustard.**  
A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, &c. &c.  
**Lee's Ointment for the Itch.**  
Warranted an infallible remedy at once application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

**Hahn's true & genuine German Corn Plaster.**  
An infallible remedy for corns, speedily removing them root and branch, without giving any pain.  
**The Genuine Persian Lotion.**  
So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat, &c.  
**Hahn's genuine Eye Water.**  
A sovereign remedy for all diseases of the eyes, whether the effect of nature's weakness or of accident.  
**Tooth Ache Drops.**  
The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.  
**Lee's Infallible Igus and Fever Drops**  
For the cure of agues, remittent and intermittent fevers.  
At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the numbers, impareance and respectability of which, fully justify every article of this advertisement.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy loaded on mere assertion.  
It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.  
The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.  
They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
